NEHRO SPRAY GUN

This Nehro spray gun is specially suited for vineyards, orchards and greenhouse spraying. Made of Stainless steel and brass body overmoulding with thermostatic materials, its main feature is one hand pattern adjustment and on/off trigger for right/left handed. New ergonomic handgrip with user handshield and UNI EN locking device are added advantages.

Excellent nebulization provided by the "Turbo" atomizer, adjustable through mark notches matching the selected nozzle size and Swivel connection allows operator to concentrate on application without hose interference. Bayonet cap for easy tip cleaning and replacement enables longer shelf life.
