

Valves, That Last Thru' Time.

M410 - 411 NON RETURN VALVE

Standard valves with 1/4" BSP used on boom and air blast sprayers, with a by pass max. output of 180 l/min - 48 USGal / min, these valves weight 1.2 kg / 2.6 lb. Enabling accurate pressure adjustment by passing excess liquid, these valves are used also for pressure relief. Made of Brass, stainless steel, stainless steel vacuum hardened piston and valve seat, Buna N seals - high resistance plastic materials, these valves are wear and damage proof.
